

Turku Urban Research Programme

The Turku Urban Research Programme is a research collaboration and knowledge-brokerage initiative between the City of Turku with

- University of Turku
- Åbo Akademi University
- And also involving co-operation with other universities and research institutes.

The municipality aims to gain insights and policy advice, while universities benefit from the regional engagement and strengthening of urban scholarship, including the challenge to develop projects with and practical relevance.

Turku Urban Research Programme addresses to urban planning and design gap on the GRAA

Thank you

Heli Huuskonen, Project Manager, City of Turku
